

2021 / 2022	AUTUMN		SPRING		SUMMER	
	HT1	HT2	HT3	HT4	HT5	HT6
Y7	Area of study: Geography Skills Key concepts: Map Skills Assessment method: Exam	Area of study: Development Key concepts: Human geography Assessment method: Exam	Area of study: Rivers Key concepts: Physical geography: Map skills, UK places Assessment method: Exam	Area of study: Settlements Key concepts: Human geography Assessment method: Exam	Area of study: Coasts Key concepts: Physical geography, map skills Assessment method: Exam	Area of study: Introduction to Africa Key concepts: Human and physical geography Assessment method: Report
Y8	Area of study: Wild Weather Key concepts: Physical geography: map and graph skills Assessment method: field study report	Area of study: Globalisation Key concepts: Human geography: case study – cause and effect Assessment method: Report	Area of study: Deadly Earth Key concepts: Physical geography Assessment method: Exam	Area of study: Development Key concepts: Human geography Assessment method: Exam	Area of study: Climate Change Key concepts: Physical geography Assessment method: Leaflet	Area of study: Population Key concepts: Human geography: Case study Assessment method: group project
Y9	Area of study: Development Key concepts: Human geography Assessment method: Exam	Area of study: Superpowers Key concepts: Human geography: case study, cause and effect Assessment method: Exam	Area of study: Endangered Ecosystems Key concepts: Physical and human geography – case study – development and resources Assessment method: Exam	Area of study: Conflict Key concepts: Human geography – Assessment method:	Area of study: Evington Field Study Key concepts: Human geography: map skills and data handling Assessment method: Presentation	Area of study: GCSE key skills Key concepts: Physical & Human geography Assessment method: GCSE questions
Y10	Area of study: Natural Hazards Key concepts: Physical Geography Assessment method: GCSE exam questions	Area of study: Urban Challenges Key concepts: Human geography Assessment method: GCSE exam questions	Area of study: UK landscape Key concepts: Physical geography Assessment method: GCSE exam questions	Area of study: UK Landscapes Key concepts: Physical geography Assessment method: GCSE exam questions	Area of study: The changing economic world Key concepts: Human geography Assessment method: GCSE exam questions	Area of study: The changing economic world Key concepts: Human geography Assessment method: GCSE exam questions
Y11	Area of study: Living World Key concepts: Physical geography Assessment method: GCSE exam questions	Area of study: Living World Key concepts: Physical geography Assessment method: GCSE exam questions	Area of study: Resource management Key concepts: Human geography Assessment method: GCSE exam questions	Area of study: Resource management Key concepts: Human geography Assessment method: GCSE exam questions	Area of study: Revision Key concepts Assessment method: GCSE exam questions	

NOTES	AREAS OF STUDY	KEY CONCEPTS	ASSESSMENT METHOD
	A variety of human and physical topics are studied in each year and key concepts are returned to at regular intervals (eg population change, development, etc)	All geography skills are distributed throughout both physical and human geography topics. Case studies are included at regular intervals.	A variety of methods are used at KS3 with GCSE exam style questions introduced at Year 9 and used for assessment at KS4
